

Amendments to the Drawings:

The attached replacement sheets of drawings includes changes to Figs. 1, 2 and 3E, and replace the original sheets including Figs. 1, 2, 3D and 3E.

Figs. 1 and 2 have been amended to show features that appeared in the drawings as originally filed in parent application 08/646,512, some of which were also submitted in a response filed in parent application 09/062,874 on October 8, 1999.

Fig. 3E has been amended to show the pixel electrode 118 overlapping the gate line 110 and source line 113. This change makes Fig. 3E consistent with Figs. 1 and 2, which clearly show the pixel electrode 118 overlapping the dashed lines that represent the gate line 110 and the signal line 113. This change was also made in the response filed in parent application 09/062,874 on October 8, 1999.
